

Mr. John Simons
Secondary Principal

The secondary school boasts an impressive, modern well-maintained, energy efficient physical plant that provides a full range of instructional and athletic opportunities for students. In addition to these attributes the school houses an ice arena, a new track and a regulation size swimming pool.

The Salmon River Secondary School features four computer labs plus computers in many rooms to help facilitate online learning whenever possible. The high school library houses over 10,000 books and over 41 magazine titles. The library is connected to the OPAC automated on--line program that allows students to search the Mandarin system for circulating publications. The secondary library can accommodate up to sixty (60) people and offers interlibrary loans in order to better serve teachers and students in the classrooms.

Salmon River Secondary School provides plenty of opportunities for students to become active in sports as well. The school sponsors both boys and girls basketball, hockey, baseball, and softball. In addition there are a wide variety of competitions in track and field, swimming, and lacrosse.
